

Interactive speed monitoring sign for the Parish? Your comments needed.

Newton on the Moor & Swarland Parish Council have had funding reserved from County Councillor Trevor Thorne via the NCC Small Grants scheme, to purchase and install an interactive speed monitoring sign. This will cost about £5000.

The sign will use radar to check and display vehicle speed as motorists approach. The purpose of such signs is to slow cars down by making drivers aware when they are driving at speeds above the posted limits.

The Parish Council has an open mind about where to locate this equipment, within our parish. Please bear in mind that the new Newton on the Moor speed restriction provisions still need sufficient time to take effect and to be evaluated, and that the County Council is already working on plans for traffic-calming in the vicinity of Swarland School, so we are particularly keen to hear about other priority locations within the parish. Please let us know your suggestions, together with any relevant evidence, **by 19th September 2018.**

Please email the Clerk, Jan Anderson on:
